

# Dahlia

RED GRENACHE 2022  
GREY WINE · ORGANIC

Dahlia is the most admired flower for its delicacy. It was discovered in Yucatan and since then it has represented the desire to achieve beauty and reproduce it beyond its origin. The name of the wine expresses a single desire: to capture the finest and most beautiful essence of the Grenache.

## ORIGIN

La Carrerada Vineyard is located in Font-Rubí (Alt Penedès), at an altitude of 285 metres. The soil style is calcareous clay.

LA CARRERADA

Average annual rainfall  
Between 500 and 600 l/m<sup>2</sup>

Formation  
Royat

Orientation of strains  
North to South

## GREY WINE

Grey wine refers to the very pale rosés that are made from direct and soft pressing. No pellicular maceration is carried out with the skins, so tannin and colour extraction is minimal. This way we obtain an expressive and delicate flower must that anticipates great complexity.

## RED GRENACHE

In pale rosés, Grenache is characterized by bringing a fruity and floral character. We obtain elegant and subtle wines, with good acidity.

## ELABORATION

Fermentation takes place in stainless steel tanks at a controlled temperature in order to preserve its floral character.

## SENSATIONS

**Appearance:** Very pale pink colour and characteristic grey tones that give it its name.

**On the nose:** Delicate aromas of rosé and jasmine.

**On the palate:** Fresh and floral, elegant with notes of red fruits and persistent acidity.

*"Beauty has two sides. Light and mystery, the obvious and the hidden. Like an enigmatic flower, Dahlia attracts and enchants. Its aroma envelops you with a subtle and intense presence."*

## PAIRING

Ideal for appetizers or to pair with soft rice and fish or seafood recipes.

## WINEMAKING PHILOSOPHY

Implementing sustainable agriculture is our responsibility, and for this reason, since 2018 the 100% of our wines and cavas have the CCPAE (European Union) ecological certificate.

We are certified as vegan by V-Label (European Vegetarian Union), as in our winery we do not use any product derived from animals.

Certified by the Wineries for Climate Protection. Using renewal energies, managing our resources efficiently and taking care of the planet are some of our values as a winery.
